Ref:	SYR03
Location:	Norwich
Package:	£30,000 – £35,000 + Excellent Benefits
Industry:	IT

Linux Systems Administrator with Development (C++/ JAVA) experience

Based in Norwich

Salary £30,000 – £35,000 + Excellent Benefits

The Role:

As the Linux Systems Administrator you will be tasked with overseeing and improving the current server and embedded systems. You will play a role in implementing a new database system and will work with the Senior Software Developer to maintain and improve the current software systems. In addition, as Linux Systems Administrator, you will be required to prepare status reports on the efficiency of the current systems. As the Linux Systems Administrator, you will be up-to-date with current technologies and techniques for remote systems management, replication and internet content delivery. This role will include travel to client sites, with the potential for international travel.

The Candidate:

The ideal candidate for the Linux Systems Administrator role will be highly competent with the Linux operating system when used in a remote context (server). You will be familiar with the QNX operating system and competent in writing Linux server scripts in Shell/ Pearl. You will have some experience in writing code and be familiar with C++ or JAVA. The ideal candidate for the Linux Systems Administrator role will demonstrate a keen willingness to learn and the ability to work on your own initiative with minimal supervision. Additionally, you will have a full British/ EU driving licence and access to a car.

The Company:

Our Client is one of the world's leading developers of pipeline monitoring technology. The company offer multi-award winning solutions that help water companies manage pipeline networks more effectively and improve maintenance and durability as well as helping its clients reduce water losses and the associated costs.

The Package:

As the Linux Systems Administrator you will receive a basic salary of £30,000- £35,000. Your benefits will include discretionary bonus scheme and share options. The successful candidate will receive 25 days annual leave.

This really is a great opportunity for an accomplished and experience Linux Systems Administrator to join a dynamic market-leading company. To apply for role, please submit your CV and a covering letter quoting reference SYR03.

This role will suit candidates who have experience in the following: Software Developer, C++, JAVA, AJAX, QNX Operating Systems, Shell Script, Pearl.

This job would be suitable for candidates based in: Norwich, Norfolk, Great Yarmouth, Lowestoft, Diss, Stowmarket, East Anglia, Ipswich, Colchester, Bury St Edmunds, Thetford, Swaffham, Fakenham, King's Lynn.
